

Inhalt**7. Folge, Band 40****Heft 1**

	Seite
I. M. TERNOV and V. G. BAGROV, Moskau (UdSSR): On Coherent States of Relativistic Particles	2
L. SCHIMANSKY-GEIER and W. EBELING, Berlin: Stochastic Theory of Nucleation in Non-equilibrium Bistable Reaction Systems. Mit 8 Abbildungen	10
W. EBELING, Berlin: Discussion of the Klimontovich Theory of Hydrodynamic Turbulence. Mit 5 Abbildungen	25
H. EICHHORN und H.-E. PONATH, Jena: Solitonen in Wellenleitern mit nichtlinearer optischer Beschichtung	34
H.-J. TREDER, Caputh: Isotope und homogene Materie — „Kosmen“	39
H. FUCHS, Potsdam-Babelsberg: Spinning Test Particles as Locally Nonrotating Observers in Kerr Spacetime	47
W. EBELING, Berlin: Autocatalytic Models for Turbulent Flow in Tubes. Mit 2 Abbildungen	51
H.-J. OTTO and G. WEIGT, Berlin und Zeuthen: On the Migdal-Makeenko Equation for Simple and Nonsimple Contours. Mit 1 Abbildung	1
W. EBELING and U. FEUDEL, Berlin: Influence of Coulomb Interactions on Dissipative Structures in Reaction-Diffusion Systems. Mit 6 Abbildungen	68
Hinweise für die Manuskriptgestaltung	79

Ausgegeben im September 1983

Heft 2/3

H.-J. TREDER, Potsdam-Babelsberg: Hermiteische Relativitätstheorie, Chromodynamik und Confinement	81
R. B. WINKLER, J. WILHELM, and R. WINKLER, Greifswald: Kinetics of the Ar-Hg Plasma of Fluorescent Lamp Discharges. I. Model — Basic Equations — Hg Partial Pressure Variation. Mit 22 Abbildungen	90
R. B. WINKLER, J. WILHELM, and R. WINKLER, Greifswald: Kinetics of the Ar-Hg Plasma of Fluorescent Lamp Discharges. II. Ar Partial Pressure and Discharge Current Variation. Mit 26 Abbildungen	119
R. BURGHARDT, Brunn/Geb. (Österreich): Zur Relativität der Beschleunigung	140
H. MALCHOW, W. EBELING, R. FEISTEL, and L. SCHIMANSKY-GEIER, Berlin: Stochastic Bifurcations in a Bistable Reaction-Diffusion System with Neumann Boundary Conditions. Mit 4 Abbildungen	151
A. GERMANUS, H. PFEIFER, W. HEINE, and J. KÄRGER, Leipzig: On the Application of the Spin-Locking Technique for NMR Self-Diffusion Measurements by Pulsed Field Gradients. Mit 3 Abbildungen	161
H. DORN, D. ROBASCHIK, and E. WIECZOREK, Berlin, Dubna (UdSSR) und Zeuthen: Renormalization and Short Distance Properties of Gauge Invariant Gluonium and Hadron Operators. Mit 8 Abbildungen	166
Register für den Band 39	461

Ausgegeben im November 1983

Heft 4/5

	Seite
V. G. BAGROV and V. V. OBUKHOV, Moskau (UdSSR): Classes of Exact Solutions of the Einstein-Maxwell Equations	181
J. VERHÁS, Budapest (Hungary): An Extension of the Governing Principle of Dissipative Processes to Nonlinear Constitutive Equations	189
J. P. MOCKET, Potsdam-Babelsberg: Equilibrium Statistical Mechanics in Mach-Einstein-Universes	194
W. SZABLEWSKI, Berlin: Über zweidimensionale Turbulenz. Mit 4 Abbildungen	206
H. GÜNTHER, Caputh: On the Physical Origin for the Geometric Theory of Continuum Mechanics	220
H.-J. TREDER, Caputh: On the Correlations between the Particles in the EPR-Paradoxon	227
H. FUCHS, Potsdam-Babelsberg: Solutions of the Equations of Geodesic Deviation for Static Spherical Symmetric Space-times	231
TH. RICHTER, Berlin-Adlershof: Cooperative Spontaneous Emission from an Initially Fully Excited System of Three Identical Two-level Atoms. Mit 12 Abbildungen	234
TH. KLUPFSCHE, Jena: Kinetics of Liquid-Solid Phase Transition and Absolute Kinetic Coefficient for One-Component Systems Derived from Molecular Theory	262
U. BLEYER and H.-J. TREDER, Potsdam-Babelsberg and Caputh: The Hertz's Method of Superpotential	273
L. SCHIMANSKY-GEIER, A. S. MIKHAILOV, and W. EBELING, Berlin: Effect of Fluctuation on Plane Front Propagation in Bistable Nonequilibrium Systems. Mit 2 Abbildungen ..	277
H.-H. v. BORZESZKOWSKI and H.-J. TREDER, Caputh: Quantum Gravity and Quantum Non-demolition Measurements	287
H. GÜNTHER, Caputh: Remark on Groups and Internal Structure in Continuum Mechanics ..	291
Kurze Mitteilung	
H.-H. v. BORZESZKOWSKI and H.-J. TREDER, Caputh: The Universal Character of Planck's Charge	298

Ausgegeben im März 1984

Heft 6

S. STEPANOW, Leuna-Merseburg: Field Theoretic Renormalization Group and the Scaling Behaviour in Polymer Solutions. Mit 10 Abbildungen	301
F. BOFF, München: Quantenphysikalischer Ursprung der Eichidee. Mit 1 Abbildung	317
G. MANN und T. RIEMANN, Berlin und Zeuthen: Effective Flavor-changing Weak Neutral Current in the Standard Theory and Z-Boson Decay. Mit 4 Abbildungen	334
R. SCHUMANN und K. ELK, Dresden: Über analytische Eigenschaften der Einteilchengreen-funktionen in einem Zwei-Band-Modell	347
F. GACKSTÄTTER, Berlin (West): Über Planetenbewegung und Lichtbahnen im Schwarzschild- und im Reissner-Nordström-Raum. Mit 6 Abbildungen	352
H.-J. TREDER, Caputh: Gibt es Plancksche Sekunden des Kosmos?	375
H.-J. TREDER, Caputh: Über die dynamische Gleichung in der Hermiteschen Relativitätstheorie	378

Ausgegeben im Mai 1984

Contents

Number 1

	Page
I. M. TERNOV and V. G. BAGROV, Moskau (USSR): On Coherent States of Relativistic Particles	2
L. SCHIMANSKY-GEIER and W. EBELING, Berlin: Stochastic Theory of Nucleation in Non-equilibrium Bistable Reaction Systems. With 8 Figures	19
W. EBELING, Berlin: Discussion of the Klimontovich Theory of Hydrodynamic Turbulence. With 5 Figures	25
H. EICHORN and H.-E. PONATH, Jena: Solitons in a Waveguide with a Thin Nonlinear Optical Slab	34
H.-J. TREDER, Caputh: On Dynamics and Thermodynamics of Isotropic Matter-Universes	39
H. FUCHS, Potsdam-Babelsberg: Spinning Test Particles as Locally Nonrotating Observers in Kerr Spacetime	47
W. EBELING, Berlin: Autocatalytic Models for Turbulent Flows in Tubes. With 2 Figures	51
H. J. OTTO and G. WEIGT, Berlin and Zeuthen: On the Migdal-Makeenko Equation for Simple and Nonsimple Contours. With 1 Figure	61
W. EBELING and U. FEUDEL, Berlin: Influence of Coulomb Interactions on Dissipative Structures in Reaction-Diffusion Systems. With 6 Figures	68
Direction for Preparation of Manuscripts	79
Delivered in September 1983	

Number 2/3

H.-J. TREDER, Potsdam-Babelsberg: Hermitian Relativity, Chromodynamics and Confinement	81
R. B. WINKLER, J. WILHELM, and R. WINKLER, Greifswald: Kinetics of the Ar-Hg Plasma of Fluorescent Lamp Discharges. I. Model — Basic Equations — Hg Partial Pressure Variation. With 22 Figures	90
R. B. WINKLER, J. WILHELM, and R. WINKLER, Greifswald: Kinetics of the Ar-Hg Plasma of Fluorescent Lamp Discharges. II. Ar Partial Pressure and Discharge Current Variation. With 26 Figures	119
R. BURGHARDT, Brunn/Geb. (Austria): The Relativity of Acceleration	140
H. MALCHOW, W. EBELING, R. FEISTEL, and L. SCHIMANSKY-GEIER, Berlin: Stochastic Bifurcations in a Bistable Reaction-Diffusion System with Neumann Boundary Conditions. With 4 Figures	151
A. GERMANUS, H. PFEIFER, W. HEINE, and J. KÄRGER, Leipzig: On the Application of the Spin-Locking Technique for NMR Self-Diffusion Measurements by Pulsed Field Gradients. With 3 Figures	161
H. DORN, D. ROBASCHIK, and E. WIECZOREK, Berlin, Dubna (USSR) and Zeuthen: Renormalization and Short Distance Properties of Gauge Invariant Gluonium and Hadron Operators. With 8 Figures	166
Index for the Volume 39	461

Delivered in November 1983
